

*Auxiliary workstation for
robotic storage & retrieval
in retail pharmacies*

- Fits into existing pharmacy workflow patterns and floor plans
- Automates daily put away process
- Increased inventory turns with less on hand inventory
- Virtually eliminates waste
- Remote Stock Management— includes all items in inventory not stored in the RxSafe system (i.e. refrigerator)
- Real-time accuracy to the pill or package (minimizes manual auditing)
- Real-time tracking of every operator interaction
- Expiration date and lot number tracking
- Biometric login required for medication access
- Utilizes EyeCon® automated pill counter (optional)

The RxAWS™ complements the RxSafe 1800™ and RxSafe 900™ by adding a one or more workstations for checking in inventory, putting away remote stock, and filling prescriptions from remote stock. Additionally, all of the standard features of the RxSafe system, including reports, can be accessed from the RxAWS.

The RxAWS is designed to manage open stock inventory with or without the RxSafe tower system.
