

# RxSafe 1800™

## Comprehensive, Automated, Robotic Storage & Retrieval for All Pharmacies

**I'm not a vial filling robot.**  
Manage your complete store inventory.

The RxSafe 1800™ represents an evolutionary leap in robotic pharmacy automation technology. Rather than simply automating fast-moving drugs, the RxSafe 1800 provides secure robotic storage and retrieval for your entire pharmacy inventory including controlled substances.

RxSafe technology automatically and accurately tracks all drugs in the pharmacy down to the pill or package, while greatly enhancing pharmacy efficiency. Since all drugs are stored in native packaging, there is no need for your pharmacy staff to spend time manually restocking dispensing cells. The remote stock management feature manages all inventory and filling, including refrigerated stock.

Accuracy & Speed

Space Savings

Narcotics Security

Inventory Management

- One tech can safely fill up to 120 scripts per hour
- Eliminates hundreds of trips to the shelves each day
- Monitors and stores narcotics safely and securely
- Biometric login required for medication access
- Eliminates theft and diversion
- Real-time tracking of every operator interaction
- Accurate prescription filling
- Built-in scale for automatic inventory verification with discrepancy alarm
- Opportunity for labor reallocation

- Expiration date and lot number tracking
- Reclaim valuable floor space
- Increased inventory turns with less on hand inventory
- Fits into existing pharmacy workflow patterns and floor plans
- Remote Stock Management—includes all items in inventory, even if they're in the refrigerator
- Automates wholesaler order put away and stock bottle return
- Utilizes Eyecon™ automated pill counter (optional)

## Specifications for RxSafe 1800™ System (single tower)

• Dimensions	W=25" L=102" H=95"
• Weight	700 lbs. per RxSafe 1800™ tower
• Capacity	Up to 1800 stock bottles per tower
• Script Fill Rate	Up to 120 scripts filled per hour with single operator
• Communications	Ethernet connection to controller
• Internal Temperature/Humidity	Same as pharmacy space
• Internal Cleanliness	HEPA filter, positive pressure
• Peripherals/Workstation	Touch screen monitor, biometric fingerprint reader, integrated barcode scanner, barcode label printer, wireless sequencing scanner, keyboard, mouse, automated serial number tag feeder, EyeCon™ automated tablet counter (optional)
• Robotics Motion Controller	Proprietary RxSafe motion control and logic
• Software	Proprietary RxSafe software and firmware

## Specifications for RxSafe Controller

• Computer	Industrial quality with 2x500GB solid state hard drives
• Data Security	RAID 1 onboard with full encryption
• Operating System	Microsoft Windows 7
• Database	Microsoft SQL Server
• Power	110 volt A/C, 10 amp
• Uninterruptable Power Supply	1500 VA, up to 1 hour "power-out" run time

## RxSafe Field Performance Data

Cost Reduction	30% less on-hand inventory 19% fewer FTE hours 33% less pharmacy floor space required Avoids waste due to expired drugs 100% accurate CII audit results Millions of prescriptions filled with unparalleled accuracy
