

RxAWC™

Fully Automated, Robotic Will Call Storage & Retrieval

Revolutionize your will call with the unparalleled, robotic automation technology of the RxAWC (Automated Will Call). Hold *all* of your finished goods inventory. Finished prescriptions can be added and retrieved simultaneously from the RxAWC system.

No theft, diversion or tampering since your finished goods inventory is protected by RxSafe's legendary security. Positive identification at the point of sale is required for retrieval. Only the assigned clerk has access through bio ID (optional) to ensure accurate prescription delivery.

Exclusive remote delivery to drive-thru and in-store kiosks via pneumatic tube during or after hours. Customers can choose some or all of their finished prescriptions.

With virtually no maintenance, the highest security in the industry and the fastest retrieval time, you'll never look back on your old way of doing will call.

Accuracy & Speed

- Most advanced features industrywide, made in the USA
- Unmatched flexibility & security
- Accommodates all finished goods inventory
- Accommodates all standard prescription sizes
- Avoids retrieval errors at checkout due to picking the wrong package
- Finished goods inventory remains "visible" to allow resale on demand
- Automatic retrieval of 14-day-old inventory

Remote Access

Narcotics Security

- Finished goods inventory locked securely; requires bio ID for access (optional)
- Finished prescriptions are each stored separately to facilitate pick up selection
- Small footprint
- Less on hand inventory required
- Intelligent software features without extravagant pricing mark up

Specifications for RxAWC™ System

- Dimensions W=20" L=95" H=95" (storage section only), W=30" L=20" H=50" (kiosk)
- Weight 700 lbs. per RxAWC™ tower, 200 lbs. per kiosk
- Capacity All finished goods prescriptions (expandable modular design)
- Retrieval Time 6 seconds
- Communications Ethernet connection to controller
- Internal Temperature/Humidity Same as pharmacy space
- Internal Cleanliness HEPA filter, positive pressure
- Peripherals/Workstation Touch screen monitors, biometric fingerprint readers, integrated barcode scanners
- Robotics Motion Controller Proprietary RxSafe motion control and logic
- Software Proprietary RxSafe software and firmware

Specifications for RxSafe Controller

- Computer Industrial quality with 2x500GB hard drives
- Data Security RAID 1 onboard with full encryption
- Operating System Microsoft Windows 7
- Database Microsoft SQL Server
- Power 110 volt A/C, 10 amp
- Uninterruptable Power Supply 1500 VA, 1 hour "power-out" run time for controller

RxSafe Performance Data

- Visibility of on hand finished goods inventory to fill stat prescriptions
- Automated drive-thru delivery kiosk (optional)
- Automated in-store delivery kiosk (optional)
- Avoids the need for BOP waiver
- Unmatched accuracy
- Unmatched security
- Highest density storage
- No more unsightly will call inventory
- Automated retrieval of 14-day inventory
- Automated retrieval saves labor
- Bio ID required for access (optional)
- Modular design accommodates all pharmacies

Custom Pharmacy Layout Services

Workflow Optimization

Integrates RxSafe systems' automation into existing pharmacy space
