

RxSafe 900™

Comprehensive, Automated, Robotic Storage & Retrieval for Retail Pharmacies

I'm not a vial filling robot.
Manage your complete stock bottle inventory.

The RxSafe 900™ represents an evolutionary leap in the scope of robotic pharmacy automation technology. Rather than simply automating fast-moving drugs the RxSafe 900 provides secure robotic storage and retrieval for retail pharmacy inventory.

RxSafe technology automatically and accurately tracks all drugs in the pharmacy down to the pill or package, while greatly enhancing pharmacy efficiency. Since all drugs are stored in native packaging, there is no need for pharmacy staff to spend time manually restocking dispensing cells. The remote stock management feature manages all the inventory and filling, even if it's in the refrigerator.

Accuracy & Speed

Space Savings

Narcotics Security

Inventory Management

- Fits into existing pharmacy workflow patterns and floor plans
- Automates daily put away process
- Less fill labor
- Increased inventory turns with less on hand inventory
- Virtually eliminates waste
- Elimination of theft and diversion
- Returns floor space to retail
- Secure, random order storage and retrieval of all stock bottles, including narcotics
- Accurate prescription filling
- Remote Stock Management—includes all items in inventory, even if they're in the refrigerator
- Real-time accuracy to the pill or package (minimizes manual auditing)
- Real-time tracking of every operator interaction
- Built-in scale for automatic inventory verification with discrepancy alarm
- Expiration date and lot number tracking
- Biometric login required for medication access
- Includes double locks
- Utilizes EyeCon™ automated pill counter (optional)

Specifications for RxSafe 900™ System (single tower)

• Dimensions	W=25" L=61" H=95"
• Weight	500 lbs. per RxSafe 900™ tower
• Capacity	Up to 900 stock bottles per tower
• Script Fill Rate	Up to 100 scripts filled per hour with single operator
• Communications	Ethernet connection to controller
• Internal Temperature/Humidity	Same as pharmacy space
• Internal Cleanliness	HEPA filter, positive pressure
• Peripherals/Workstation	Touch screen monitor, biometric fingerprint reader, integrated barcode scanner, barcode label printer, wireless sequencing scanner, keyboard, mouse, automated serial number tag feeder, EyeCon™ automated tablet counter (optional)
• Robotics Motion Controller	Proprietary RxSafe motion control and logic
• Software	Proprietary RxSafe software and firmware

Specifications for RxSafe Controller

• Computer	Industrial quality with 2x500GB hard drives
• Data Security	RAID 1 onboard with full encryption
• Operating System	Microsoft Windows 7
• Database	Microsoft SQL Server
• Power	110 volt A/C, 10 amp
• Uninterruptable Power Supply	1500 VA, 1 hour "power-out" run time

RxSafe Field Performance Data

Cost Reduction	30% less on-hand inventory 19% fewer FTE hours 33% less pharmacy floor space required Avoids waste due to expired drugs 100% accurate CII audit results Millions of prescriptions filled with unparalleled accuracy
