

The only truly automated robotic storage and retrieval solution for narcotics & high-shrink drugs

- Reinforced metal doors and covers with double locks for increased security
- Fits into existing pharmacy workflow patterns and floor plans
- Automates daily put away process
- Less fill labor
- Increased inventory turns with less on hand inventory
- Virtually eliminates waste
- Elimination of theft and diversion
- Returns floor space to retail
- Secure, random order storage and retrieval of all stock bottles, including narcotics
- Accurate prescription filling
- Remote Stock Management—includes all items in inventory, even if they're in the refrigerator
- Real-time accuracy to the pill or package (minimizes manual auditing)
- Real-time tracking of every operator interaction. Built-in scale for automatic inventory verification with discrepancy alarm.
- Expiration date and lot number tracking
- Biometric login required for medication access
- Includes double locks
- Utilizes EyeCon™ automated pill counter (optional)

Tracking and securing narcotics is a continual challenge for pharmacies. Manual verification is time consuming and subject to human error. Existing narcotics security solutions cannot physically verify on hand inventory.

As the industry leader in automated, high-density robotic storage and retrieval systems for pharmacies, RxSafe has developed a groundbreaking automated solution for narcotics storage—the RxVault System. This revolutionary system is based on RxSafe's proven automation technology, and will automatically and accurately track scheduled drugs down to the pill or package, while providing a complete "closed-loop" chain of custody as well as greatly enhanced pharmacy efficiency and regulatory compliance.

Specifications for RxVault 900™ System (single tower)

• Dimensions	W=25" L=61" H=95"
• Weight	600 lbs. per RxVault 900™ tower
• Capacity	Up to 900 stock bottles per tower
• Script Fill Rate	Up to 100 scripts filled per hour with single operator
• Communications	Ethernet connection to controller
• Internal Temperature/Humidity	Same as pharmacy space
• Internal Cleanliness	HEPA filter, positive pressure
• Peripherals/Workstation	Touch screen monitor, biometric fingerprint reader, integrated barcode scanner, barcode label printer, wireless sequencing scanner, keyboard, mouse, automated serial number tag feeder, EyeCon™ automated tablet counter (optional)
• Robotics Motion Controller	Proprietary RxVault motion control and logic
• Software	Proprietary RxVault software and firmware

Specifications for RxVault Controller

• Computer	Industrial quality with 2x500GB hard drives
• Data Security	RAID 1 onboard with full encryption
• Operating System	Microsoft Windows 7
• Database	Microsoft SQL Server
• Power	110 volt A/C, 10 amp
• Uninterruptable Power Supply	1500 VA, 1 hour "power-out" run time

RxVault Field Performance Data

Cost Reduction	30% less on-hand inventory 19% fewer FTE hours 33% less pharmacy floor space required Avoids waste due to expired drugs 100% accurate CII audit results Millions of prescriptions filled with unparalleled accuracy
