No more calibrated cassettes.

Experience the unparalleled, adherence packaging automation technology of the RapidPakRx™. The RapidPakRx comes with 20, 30 or 40 "smart" bulk-loaded universal cartridges that dispense all oral solid medications or neutraceuticals such as **gel caps, half tabs, new generics, etc.—without calibration.** Run a 30-day cycle at the lowest possible cost. No "pill-at-a-time" loading. No more trays or remote tray filling stations. Plus, no more errors from hand filling trays.

Our unique, 3-step, integrated machine vision verification system enables one-pass workflow, unmatched accuracy, and significantly lower operating cost. No need to stock expensive inventory. There's less inventory cost, less expiration waste, and no refills during a run. Cleaning is far less time consuming. More things get done in less time, greatly enhancing pharmacy efficiency.

RapidPakRx has the lowest daily operating costs in the industry—we use automatic, variable pouch length and our consumable pouch material costs are notably the least expensive. Thermal printing means no ink ribbons. If you've passed up strip packaging before—time to reconsider!

Adherence + **Accuracy & Speed** + **Growth** = **Profit**

- Unique 3-step, integrated machine vision verification system—one-pass workflow, no secondary machine
- All-in-one design, no separate vision inspection machine
- Most advanced features industrywide, made in the USA
- Unmatched speed, flexibility, and accuracy
- Runs 20, 30 or 40 "smart" bulk-loaded, universal cartridges simultaneously—dispense all oral solid medications (including gel caps, half tabs, new generics, etc.)
- No more trays, no more remote tray filling stations

- Up to 50 completed jobs/day, 1 tech, 8-hour shift
- Positive displacement pouch filling
- Automatic, dynamic, variable pouch sizing
- No more expensive consumables
- Less labor
- Smallest footprint (33" wide, 18" deep, 60" high, 20 cartridge configuration)
- Less on hand inventory required
- Intelligent software without extravagant pricing

Specifications for RapidPakRx™ System

- **Dimensions**   W=33" L=18" H=60" | W=83.82 cm L=45.72 cm H=152.4 cm, with 20 cartridges
- **Weight**   425 lbs|192.8 kg, 20 cartridge configuration
- **Dispensing Capacity**   20, 30 or 40 "smart" bulk-loaded universal cartridges (for any size pill)
- **Pouch Fill Rate**   Up to 50 completed jobs/day, 1 tech, 8-hour shift
- **Communications**   Ethernet connection to workstation(s) & pharmacy management software
- **Internal Temperature/Humidity**   Same as pharmacy space
- **Internal Cleanliness**   Easiest cleaning in the industry
- **Equipment**   Packager includes: Built-in controller, power supplies, 20, 30 or 40 "smart" bulk-loaded universal cartridges with 23, 33 or 43 built-in vision inspection systems, consumables sensors, thermal printer
- **Workstations (3)**   Administrative Station: PC, monitor, biometric fingerprint reader, keyboard, mouse. Final Pouch Verification: PC, monitor, biometric fingerprint reader, keyboard, mouse. "Smart" filling station with built-in vision verification.
- **Verification**   Unique 3-step integrated machine vision verification system, includes final pouch machine vision verification
- **Software**   Proprietary RxSafe software and firmware

Specifications for RxSafe Controller (built-in)

- **Computer**   Industrial quality with 2x1TB solid-state hard drives
- **Operating System**   Microsoft Windows 10 Professional, 64-bit
- **Database**   Microsoft SQL Server
- **Power**   110 volt A/C, 20 amp

RapidPakRx Field Performance Data

Cost Reduction

Far less cleaning & maintenance = less down time

Fastest fill rate in the industry

Positive displacement multi-med pouch filling

Lowest cost consumables in the industry

Automatic, dynamic pouch sizing means normally one pouch per med pass

Hi-fidelity, direct thermal printing—no print ribbon

Utilizes RxSafe patented "smart" bulk-loaded universal cartridges

No "exceptions tray" or tray filling station

No "pill-at-a-time" loading, less labor, less errors

Smallest footprint, easiest to use

Custom Pharmacy Layout Services

Workflow Optimization   Integrates RxSafe systems' automation into existing pharmacy space
